* You can use KEYMACRO to develop client applications using XML data. * KEYMACRO is a network utility that

creates and manages keys for use in Windows. * The purpose of the KEYMACRO utility is to help the developer of client applications to maintain the encryption key at the client side. Features: * Client applications can register on the server for obtaining encryption keys. * The client applications can use XML to provide data to the server. * The key is stored on the client computer and only a link to the key is passed to the server. * The server applications can use XML to obtain the data from the client. * KEYMACRO is an interactive tool. * The keys for individual applications can be separated. * KEYMACRO can be deployed as a Windows service and can run in the background. Supported Platforms: * Windows XP, Windows Vista, Windows 7, Windows 8 and Windows 10 * Windows Server 2008 and Windows Server 2008 R2 * Windows Server 2003 and Windows Server 2003 R2 * All x86 and x64 editions of Windows Requirements: * All versions of Windows * Windows Vista and Windows 7: For Windows Vista, you must have at least one monitor. To support all the monitors, you must have at least one graphics card. For Windows 7, you must have at least one keyboard. To support all the keyboards, you must have at least one USB keyboard. Prerequisites: To run the application, you must have .NET Framework 2.0 or later installed. The installer of this package installs .NET Framework 2.0. Installation steps: * To run the application, you must have .NET Framework 2.0 or later installed. * Download the SDK installation package from the Hansoft Web site. * Unzip the package to a directory on your computer. * Download and run the KEYMACRO setup.exe, and then follow the instructions that appear. * Enter a name for the application, choose a folder location for the application, and choose the language for the application. * Click Start to run the application. * For Windows Vista and Windows 7, to use the tool, you must have at least one monitor and one graphics card. To support all the monitors, you must have at least one graphics card. Please visit for further information.Q: Android ListView Click speed difference <http://genki-yanen.com/sole/joyful/joyful.cgi>
