Not Another PDF Scanner 2 Crack Mac (NAPS2) is a user-friendly piece of software that provides users with the possibility to scan and manage their documents effortlessly. Support for multiple scanner types To get started with the application, users need to connect it to an available scanner. The program includes support for a variety of scanner types and allows users create multiple scanner profiles and to add a different scanner to each of them. The tool includes support for various settings for each scanner, regardless of whether they are connected directly to the computer, or they are on a local area network (LAN). Users can also create profiles for virtual scanners. Import images and PDFs Not Another PDF Scanner 2 allows users to import images and PDF documents and can be used to export all scanned or imported documents to image or PDF files. Users can rearrange all pictures in the scanned documents in the order that is best suited to their needs. Thus, they can combine multiple documents into a single set of pages and can save all of them to the same PDF file. Powerful OCR capabilities The program comes with OCR functionality as well, allowing users not only to scan documents and save them to a digital format, but also to extract the text from them and to export it to text files. The tool includes support for a wide range OCR languages, which makes it suitable for a variety of situations. Users can change the language to the one they need fast, directly from the software's main window. A fast application All in all, Not Another PDF Scanner 2 is an easy-to-use, snappy program for scanning documents and saving them to digital documents effortlessly. It allows users to combine

---

multiple documents to a single PDF, to import images to it, as well as to arrange the scanned pages in the order that suits them best. Scans PDFs as digital photographs using Ghostscript. Add to digital library with Drag and Drop and save your file to ISO or to a PDF file. Create unlimited PDF and JPEG files from your originals. Print all your scans without using additional applications. View PDFs directly from Windows Explorer. Create PDFs from JPEG, TIFF, BMP, GIF, PNG, EXIF and PSD images. Copy, cut and rotate images within your PDF document. Imports images and PDF documents in batches. Create and manage multiple scanner profiles and import files to multiple scanners at once. Built in Optical Character Recognition (OCR 1d6a3396d6)
