Just convert FLV to MP3? No problem. Free FLV to MP3 Converter can help you do this. And it won't let you down! You can even convert multiple files at the same time, which means even more of your time can be saved. About Free FLV to MP3 Converter Free FLV to MP3 Converter is a free program to convert FLV to MP3, which can help you convert FLV files to MP3, MP4, WAV, WMA, AAC, OGG, and other audio formats, so you can enjoy your FLV on portable music player, MP3 player, or portable MP3 player. Free FLV to MP3 Converter is a program designed to help you encode FLV videos to various extensions, including MP3, AAC, FLAC, OGG, WAV, MKA, and WMA. The software comes with a clean and intuitive interface in which you can add videos by using only the file browser, since the "drag and drop" method is unsupported. Batch processing is possible. In the list, you can view the name, play time, estimated size and estimation of each video. Once you select the output profile and destination, you can proceed with the conversion process. But you can also access the "Settings" area to modify audio options regarding the encoder, bit rate, channels and sample frequency rate. Additionally, you can rename and delete files, as well as merge them, in order to create a larger

track. When the conversion tasks are completed, the program pops up a message that informs you of the total number of successful and failed jobs. Too bad you cannot specify the output name. However, if the file name already exists, Free FLV to MP3 Converter prompts. If you decline the offer to overwrite audio tracks, then the program automatically renames them (these options cannot be changed). Free FLV to MP3 Converter requires a moderate amount of system resources, quickly encodes files and manages to keep a very good sound quality. We haven't come across any glitches during our tests. In "Settings" you can also view descriptions for each aforementioned parameter. We strongly recommend this application to all users, regardless of their level. DeVry, Inc.
