A: According to the manual page you will need a copy of the IBM PC/8394 Tools Diskette. It's not a USB-stick. Edit: In order to check if your PC actually is compatible with the TPM, you should check the compatibility matrix If it says "No" beside the OEM number, then your PC is not TPM-compatible. A: Once you've installed the file you've downloaded, run the program in order to install the TPM driver. I'm assuming you're running this on a PC? Q:
