Category:Battlefield (video game series) games Category:First-person shooters Category:Video games developed in the United States Category:Video games with downloadable content Category:Windows games Category:Windows-only games Category:World War II first-person shooters Category:Video game mods Category:Multiplayer and single-player video gamesQ: How would I get a "cross" from a Diagonal of an ABCD where $ABCD = 1 \ 1 \ 1 \ 1$ I have an application where I need to get a "cross" (circular cross symbol) from a diagonal of an ABCD where $ABCD = 1 \ 1 \ 1 \ 1$. I have started using the non-standard.Net library but have never used it before, I found this post: Get symbol from diagonal of an ABCD where but didn't really find a straight forward answer on how to do this. I don't even really know where to begin on this, I don't have the math background to do it right now. The image I'm trying to get a "cross" from is not necessarily 45 degrees, 45 degrees is just the normal cross. A: You are looking for the "Tau Symbol" (also called an "ace of spades symbol", "Tau Cross" or "Cross of Spears" or "quadratic cross" depending on the fonts you have on your machine) It is available in many fonts, for example as SymbolFont2 How to use the symbol Hemodynamic changes and its effect on cerebral oxygenation with increasing fluid replacement rate during CPB. The purpose of this study was to determine the relationship between the volume and rate of perioperative fluid administration and the effects on microcirculation and cerebral oxygenation. It was designed as a prospective, randomized, double-blinded trial. Fifty-three children (aged from 3 months to 14 years) undergoing cardiac surgical procedures were randomly assigned to two groups. Group 1 (n = 27) received 1 ml kg(-1) body weight (bw) buffer solution or normal saline per kg bw over 30 min. In group 2 (n = 26) the rate of administration was progressively increased up to 1, 2, or 3 ml min(-1) kg(-1) bw per kg bw over 30 min. Mean arterial pressure and cerebral oxygenation (jugular venous oxygen saturation) were measured in both groups. From group 55cdc1ed1c
